

## Scouting the Competition

**Team Scouting:** \_\_\_\_\_ **Player doing report:** \_\_\_\_\_

Today you will analyze the strategies of a team whom you will play. Watch their game. Ask yourself a series of questions that will help you play smarter.

Here are some questions you might want to start with, but feel free to create and answer your own.

- What are their strengths?
- Who is their leading scorer?
- What type of offense are they running? (if any)
- What type of defense are they using?
- What will be your strategy for beating this team?
- What line-up will work best for this team?

**\*After playing this team, reflect on the accuracy of your scouting report. How accurate were you? What additional things should you have considered in the report? (Place in folder)**
